### **Part 1: Knowing Yourself**

The first step in planning your career is evaluating and understanding your aspirations; strengths; interests; drivers and other influences. Please indicate which aspects of the planning process you have evaluated:

- My Key Strengths

- My Work Values
- My key fields of interest

Briefly record these here if you wish (optional)

For an objective assessment, seek guidance from others as well. A discussion regarding your career aspirations, strengths and development needs during a performance review is regarded as a minimum. Informal discussions throughout the year with various people are encouraged.

Who have you discussed your career with?

- Manager
- Professional Leader
- Professional/clinical Supervisor
- Educator
- Tutor (at tertiary institution)

- Outside of work commitments
- The level of involvement required
- Which of my options responds best to my employer and workforce needs?

Based on the choices you have made, and the development opportunities you have identified now write your goal(s). Aim to make each goal as specific as you can.
